- 1. Click anywhere on the System Tray to display the Quick Settings panel.
- 2. Notifications are displayed at the top of the Quick Settings panel. Click or (on a touchscreen display) swipe a notification to move to the next one.
- 3. Click Power to turn off your Chromebook.
- 4. Click Lock to lock your Chromebook.
- 5. Click Settings to display the Settings window, which lets you arrange more system settings.

- 6. Click Wi-Fi to view and switch to other Wi-Fi networks.
- 7. Click Bluetooth to turn Bluetooth wireless connectivity on or off.
- 8. Click Notifications to arrange notification settings.
- 9. Click Night Light to turn on or off Night Light mode.
- 10. Drag the Volume slider to raise or lower your Chromebook's volume level.
- 11. Drag the Brightness slider to increase or decrease screen brightness.
- 12. Click the down arrow to hide the Quick Settings panel.

Connecting to the WI-FI

When you open the **WI-FI SETTING** you will turn on the **WI-FI SWITCH.**

This will then show you the different **WI-FI** you are looking for.

Some public **WI-FI**, like in the libraries do not need a password to get on the internet. There are other **WI-FI** that need a password. If you know the password, you can type it on the line where it says password.

Search the Internet

To do a search on the Internet click on the Google icon.

To do a search on google type in the box the topic you are looking for.

Loading Apps on Chromebook

Zoom on the chromebook click on the Play Store icon.

When you want to add an app to the shelf click on the app and then tap the trackpad with two fingers and a box will appear, click on pin to shelf.

Charging your Chromebook

DO NOT let the battery lose its full charge. Charge the battery in your Chromebook when it gets to 20%. When charging your laptop computer fully charge it to 100%.
